Introduction to Koibanx

Global Blockchain Services & Asset Tokenization

Gabriel Kurman
CEO & Co-Founder

KOIBANX®

CS&C

Who are we?

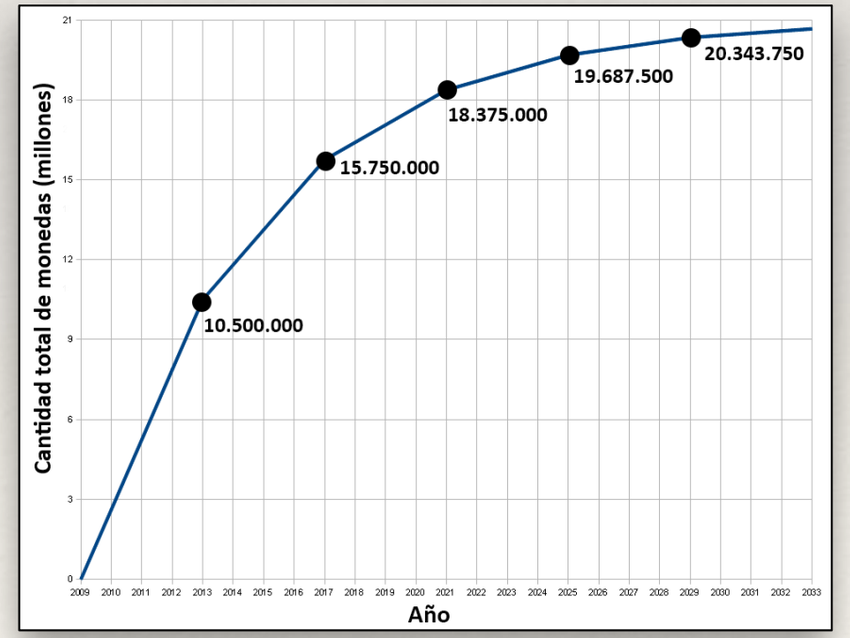
- **GABRIEL KURMAN: CEO & CO-FOUNDER**
  - Co-founder of RSK Labs
  - Executive member of Bitcoin Argentina and LATAM NGOs
  - More than 10 years of experience in Global Corporate Finance and M&A
  - Raised more than $ 1.6 Bn for Advent's LAPEF V Private Equity Fund in London, UK

- **DIEGO GUTIÉRREZ ZALDÍVAR: PRESIDENT & CO-FOUNDER**
  - CEO & Co-founder of RSK Labs, first smart contract platform as sidechain of Bitcoin Blockchain
  - Web pioneer in LATAM since 1995 (Clarin digital, Patagon, elsitio.com)
  - President of Bitcoin Argentina and LATAM NGOs
  - Organizer of LaBitConf – First Regional Bitcoin Conference (www.LaBitConf.com)
  - Sponsor of SystemaD, first decentralized NGO focused on financial inclusion

What is Bitcoin?

- First global and decentralized value transfer system
  - "Email of money”
  - No frontiers
  - No intermediaries

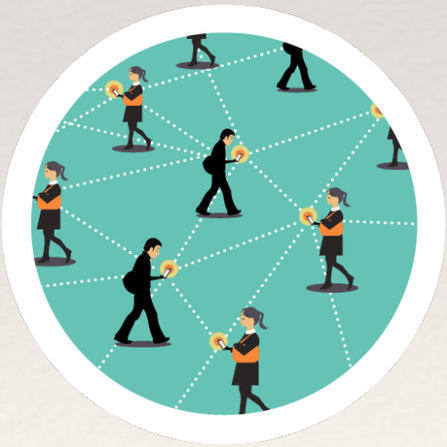
- Mathematical scarcity
  - There will never be more then 21 Million
  - Digital gold
- Unique benefits as a payment method
  - Instant / Transparent / Very low cost
  - Accesible to everybody



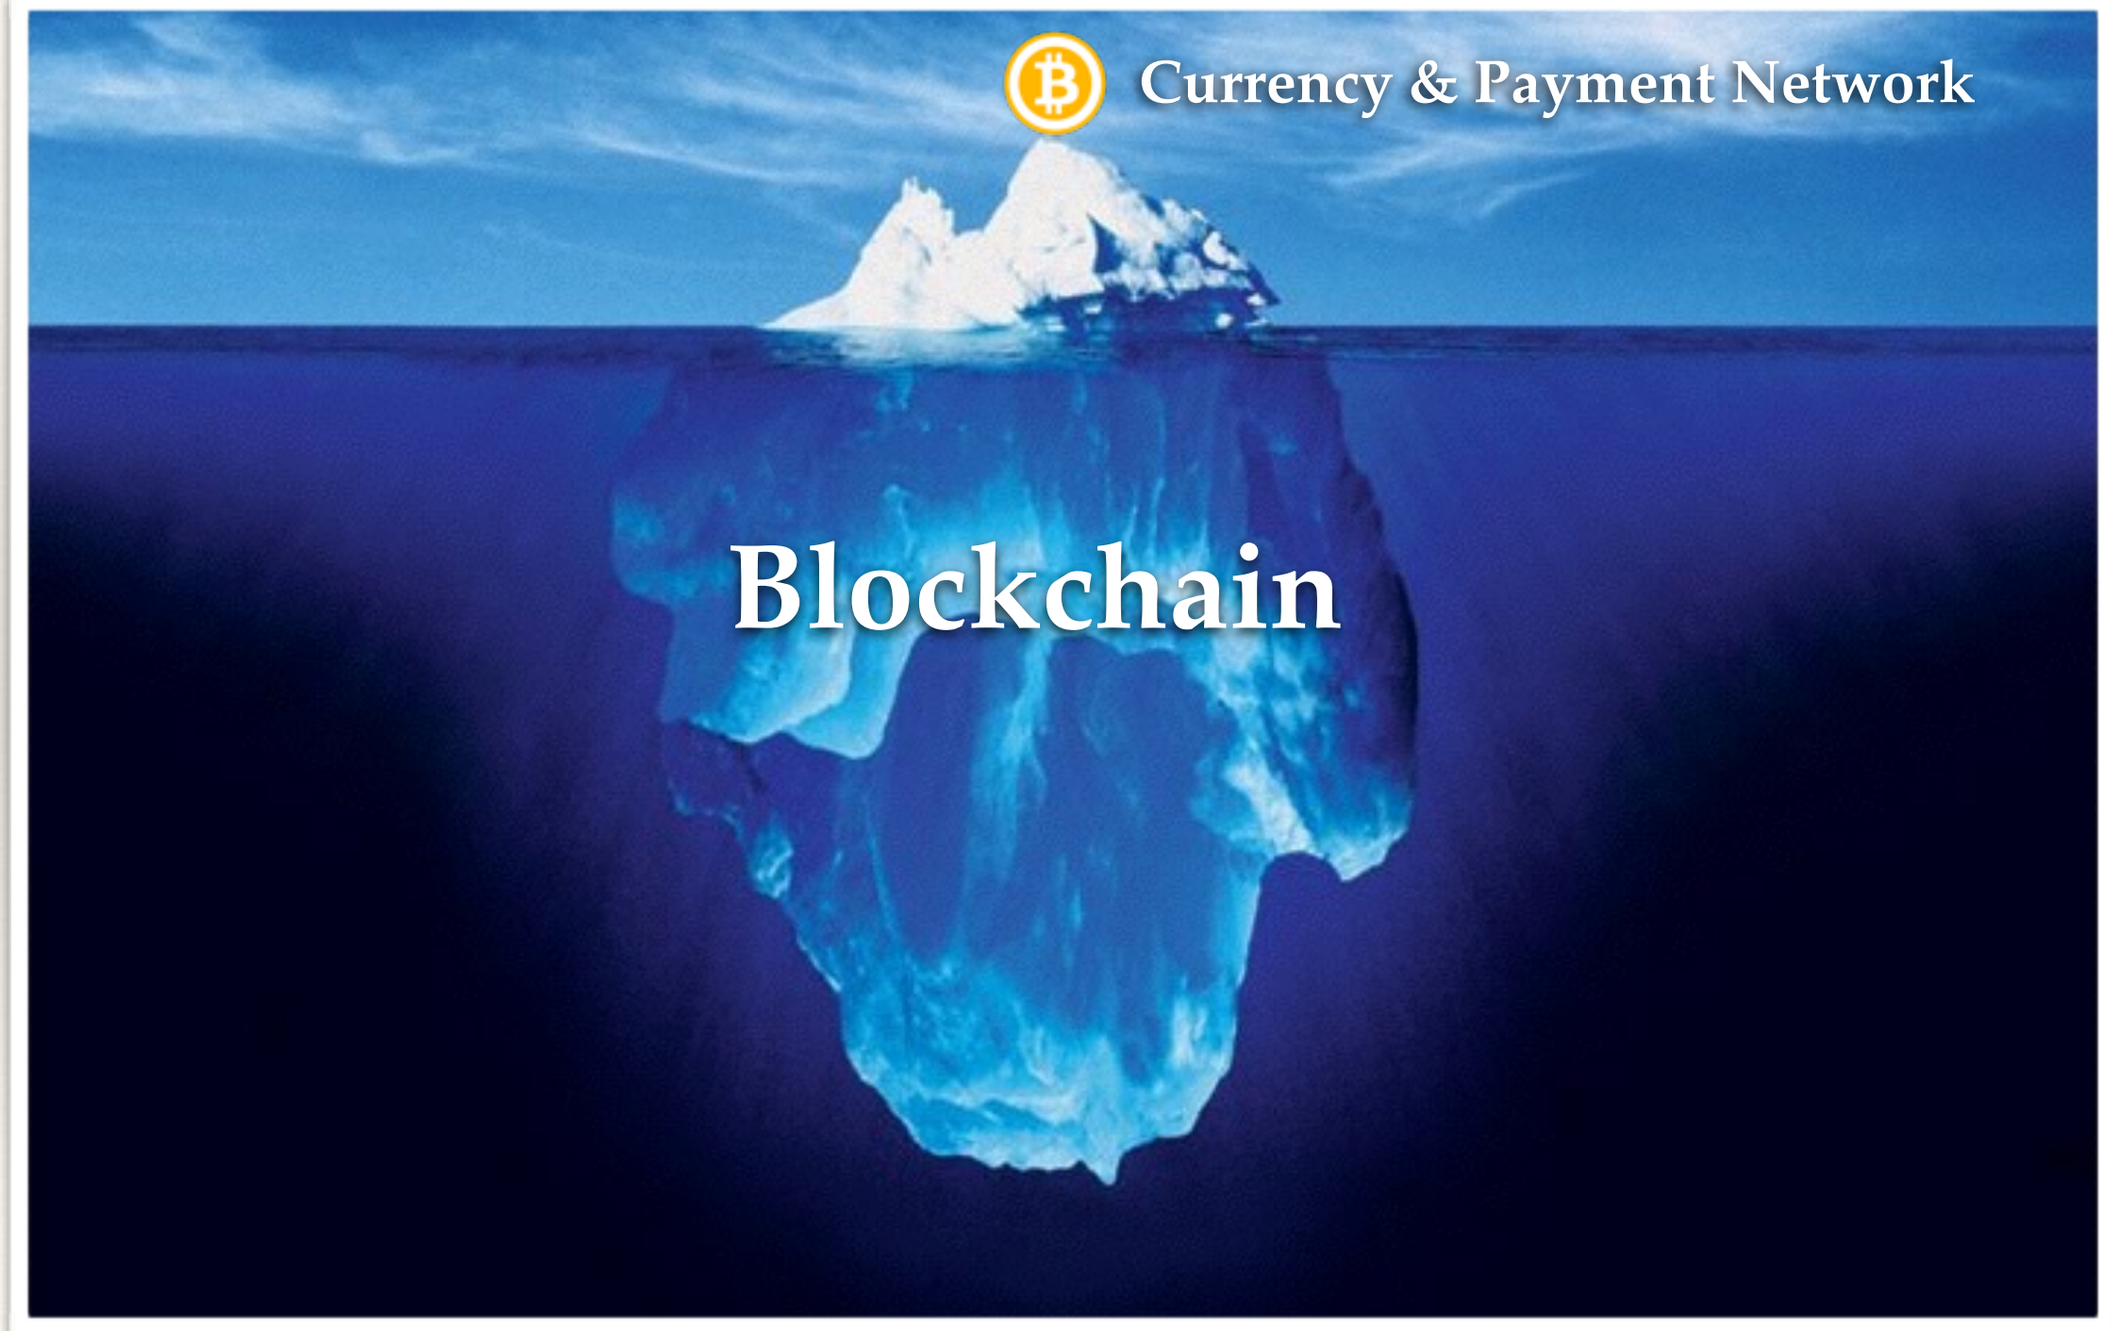
What is Blockchain?

- It is a P2P network of thousands of computers called “Miners"
  - Running an Open Source Software
  - Register/audit all Bitcoin transactions (Back office)
- No miner has control over the network or modify the Protocol

- The network has more than $1bn dollars in hardware
- How does it work?
  - One new Block is written every 10 mins
  - The miner who writes it gets 12.5BTC (coinbase) + the Block fees
  - Every 4 years the coinbase is reduced by half



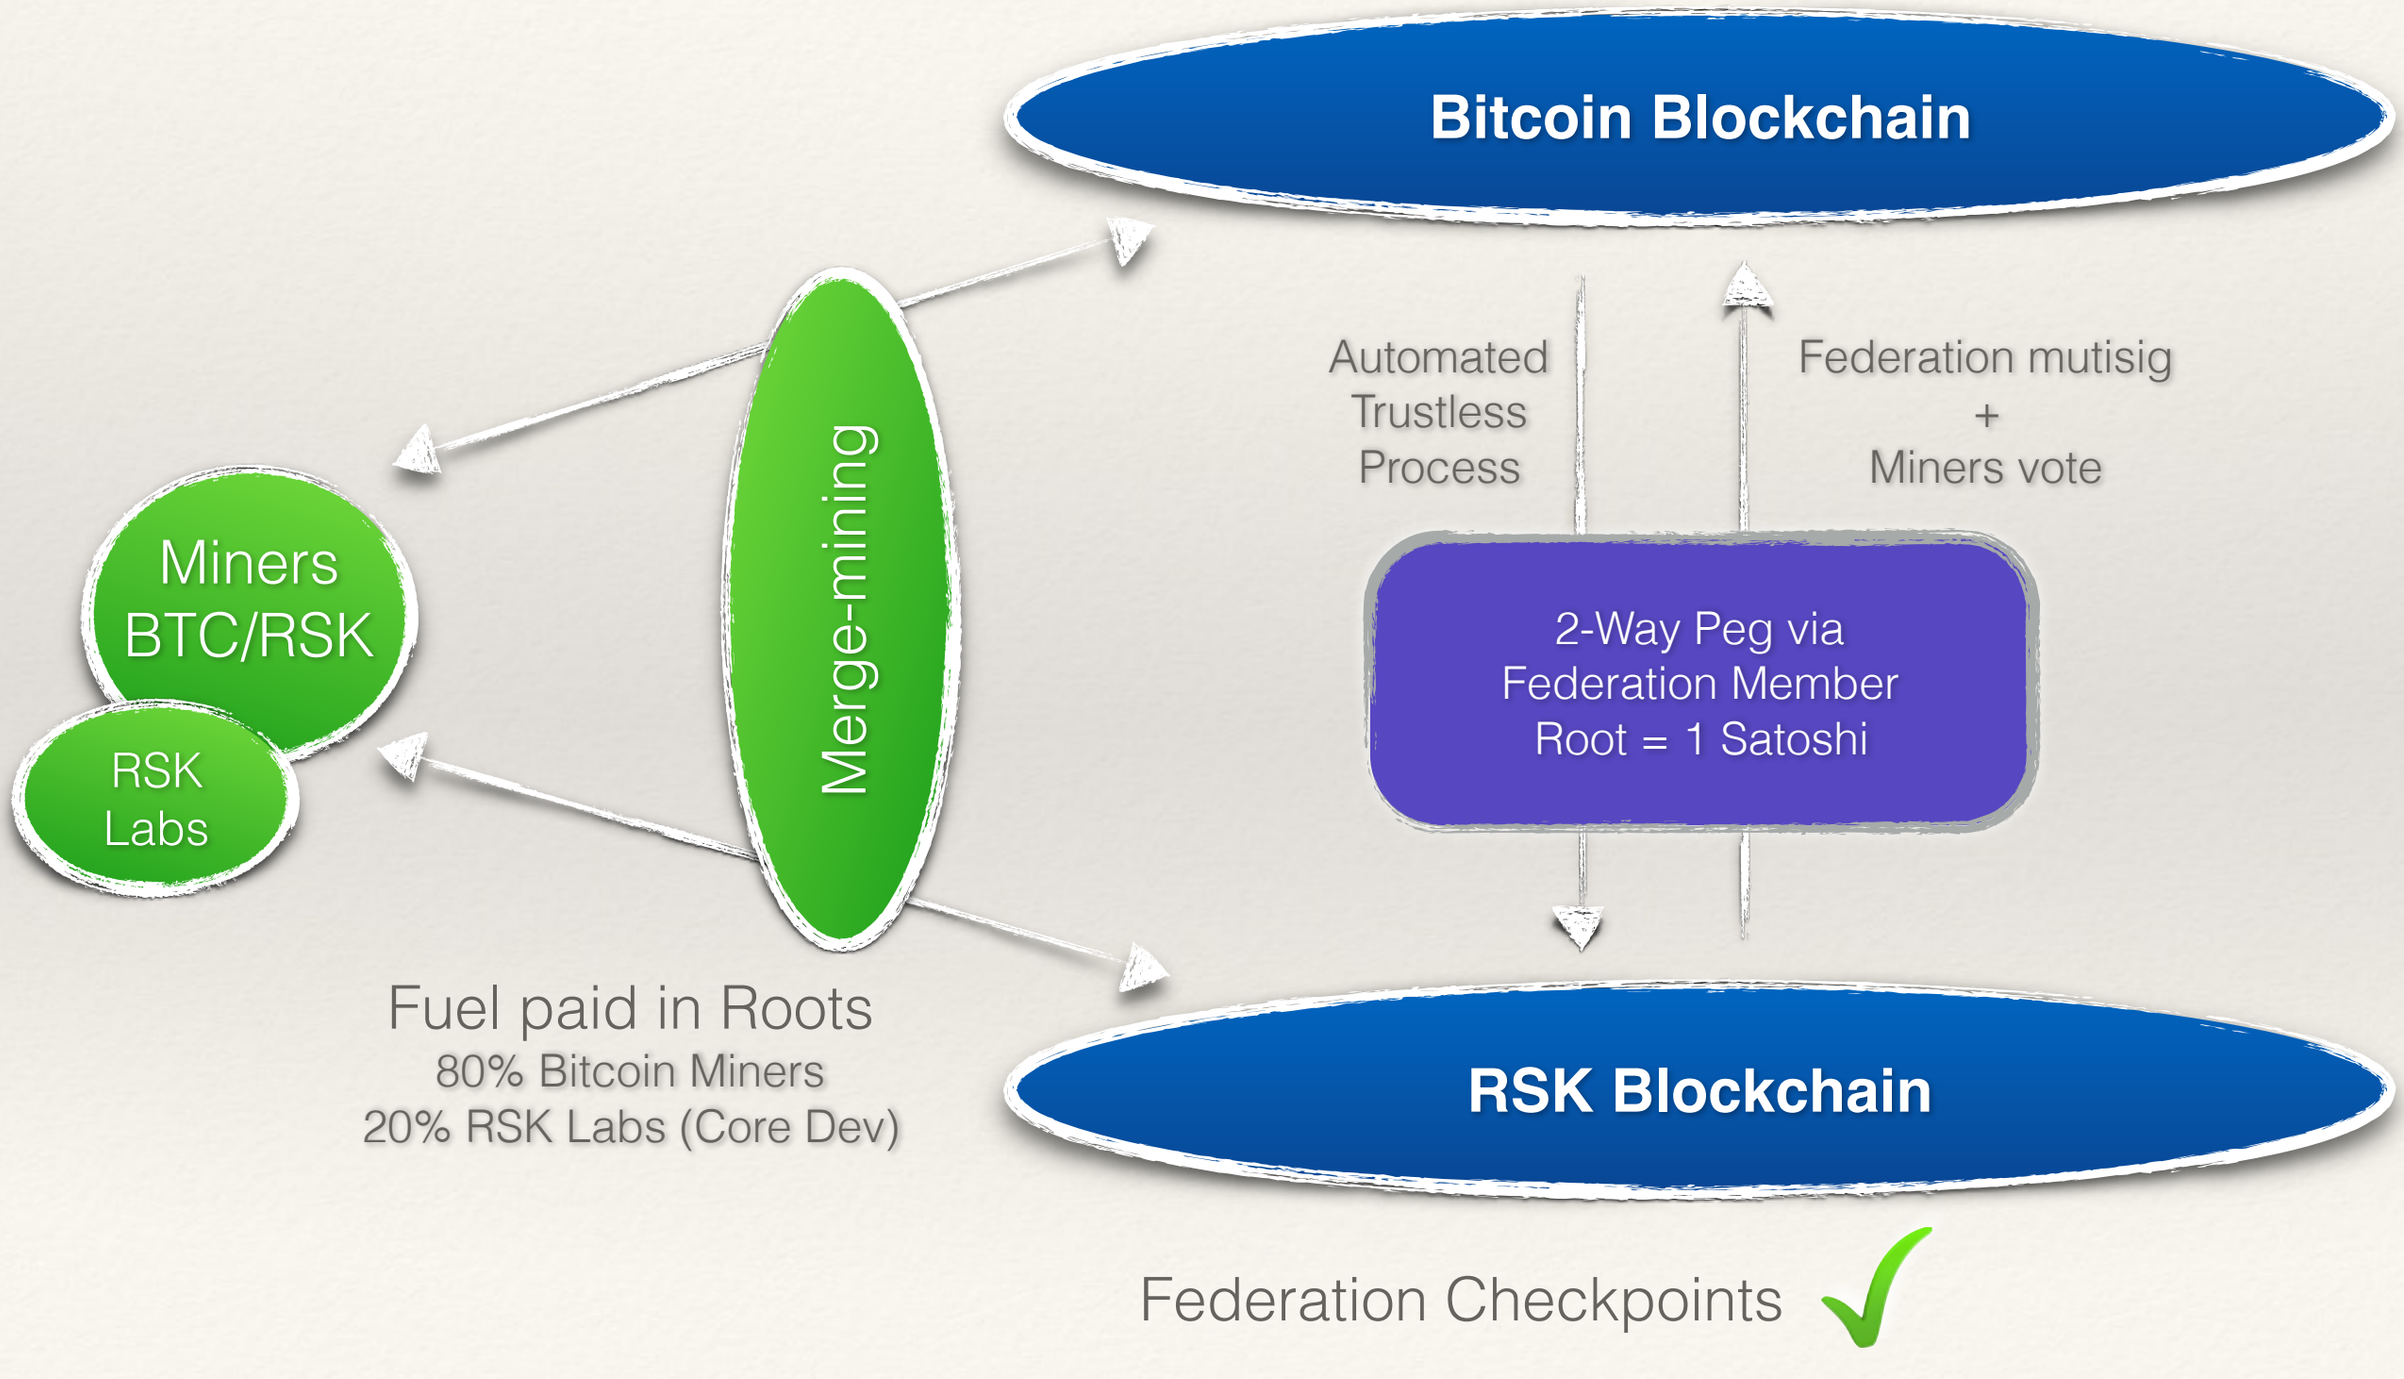
Just the Tip of the Iceberg…



Blockchain Potential: Programmable Money

- Enables **Smart contracts**
  - Rewards & Loyalty Programs
  - Smart property / Internet of things
  - Programable Money (Financial Automation)
- Micro-lending & Financial Inclusion

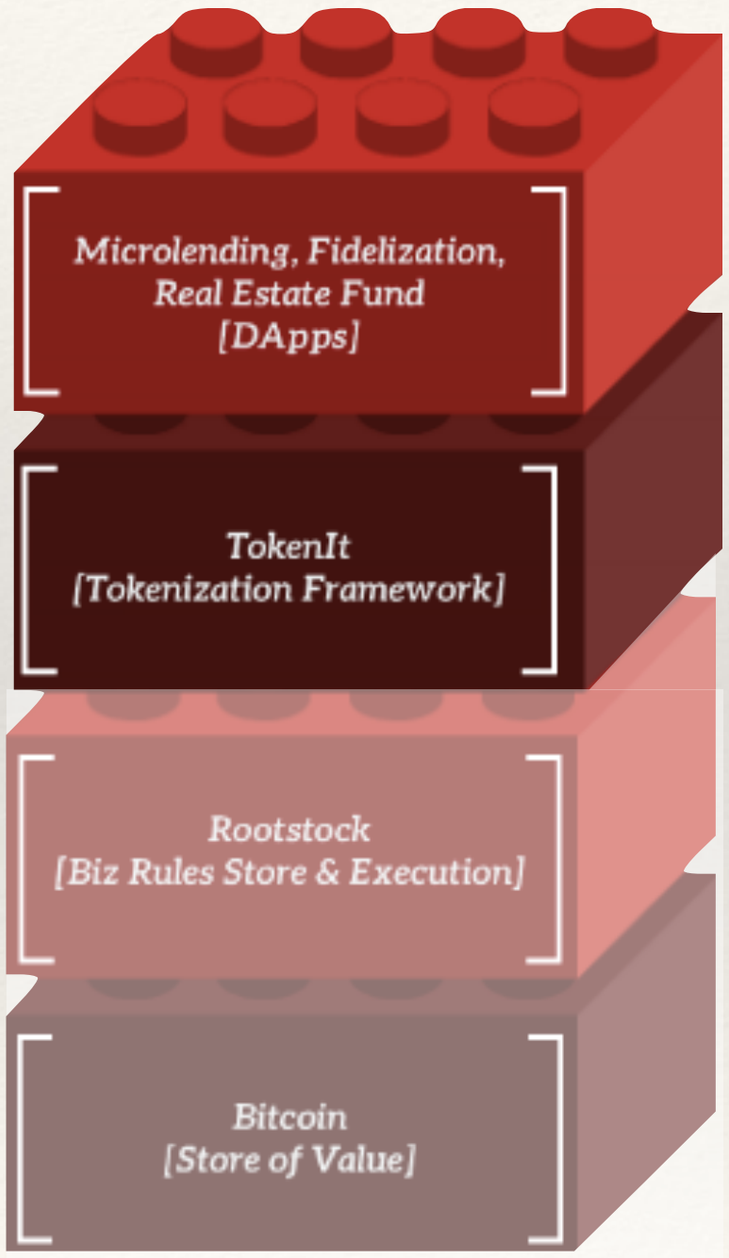
RSK Open Source Smart Contract Platform



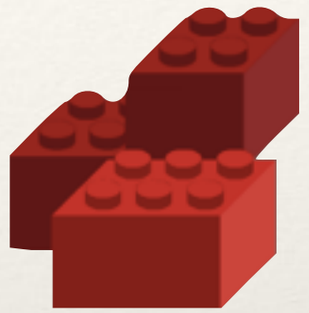
Koibanx's Technology Layers

Decentralized

KOIBANX®

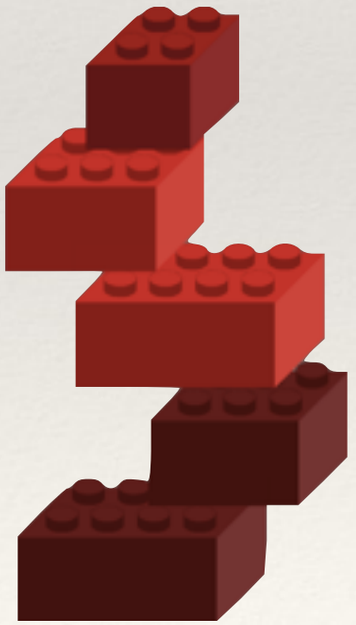


- User interfase
- Intuitive
- Absolutely user friendly



- Tokenization Framework
- Platform standard modules
- Fully customizable

- Smart-Contract layer
- Programable interfase
- Compatible with Ethereum



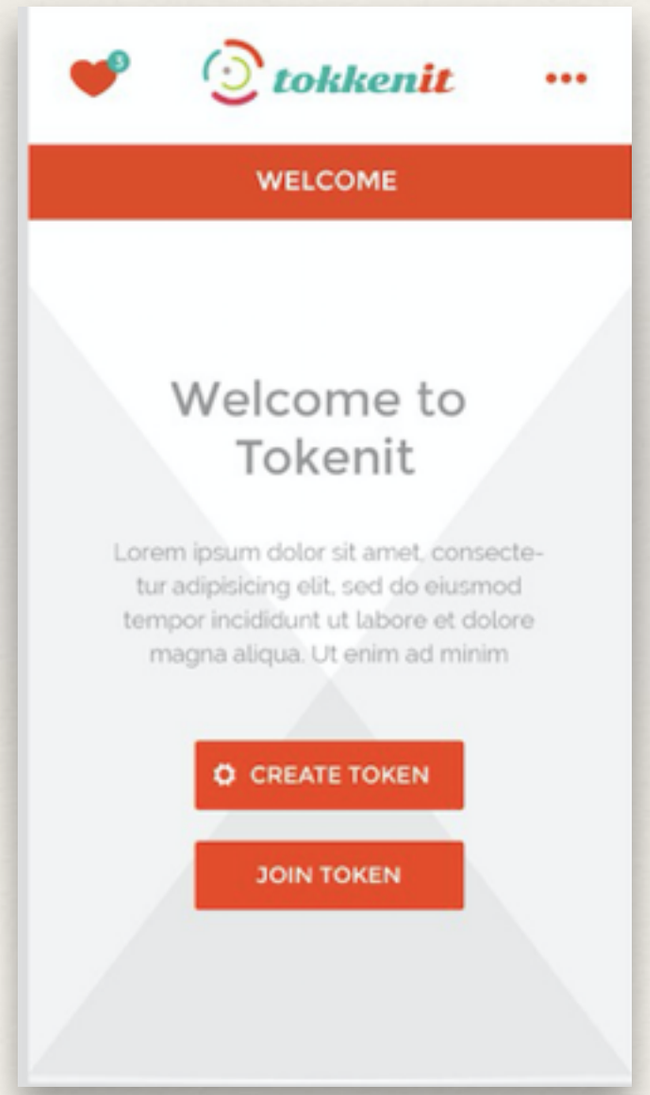
- Decentralized network
- Maximum security
- Proof of work

Koibanx Social Network & MVP

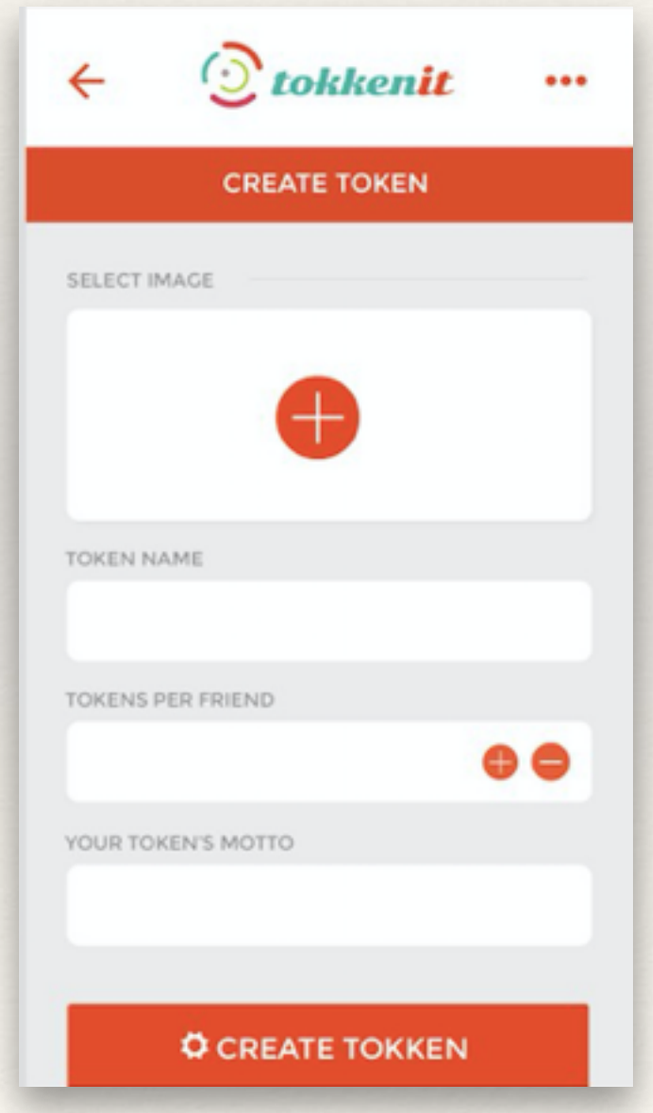
tokkenit

First Global Marketplace to Issue, Store and Exchange Tokenized products and services

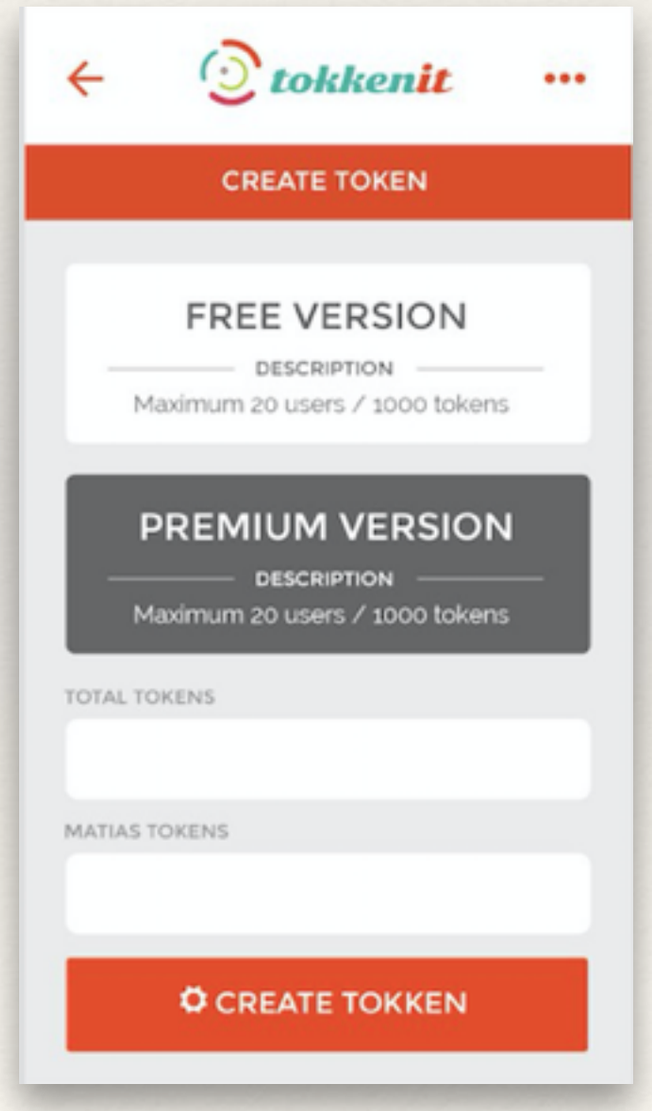
Welcome



Token Creation

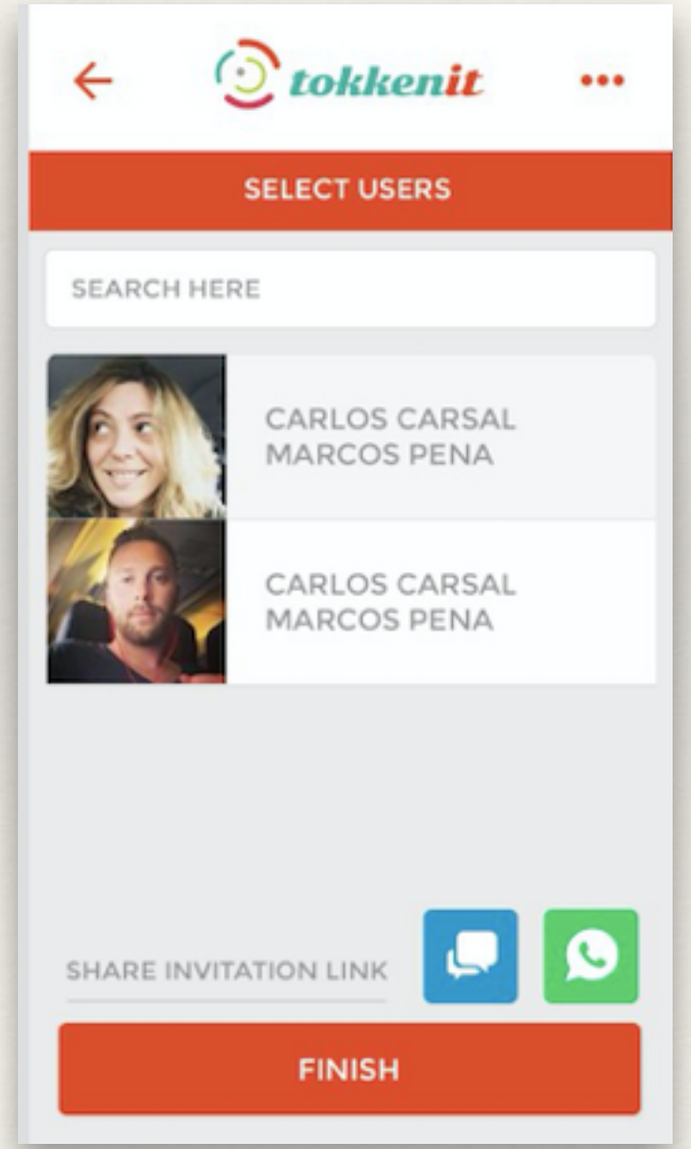


Plan Selection

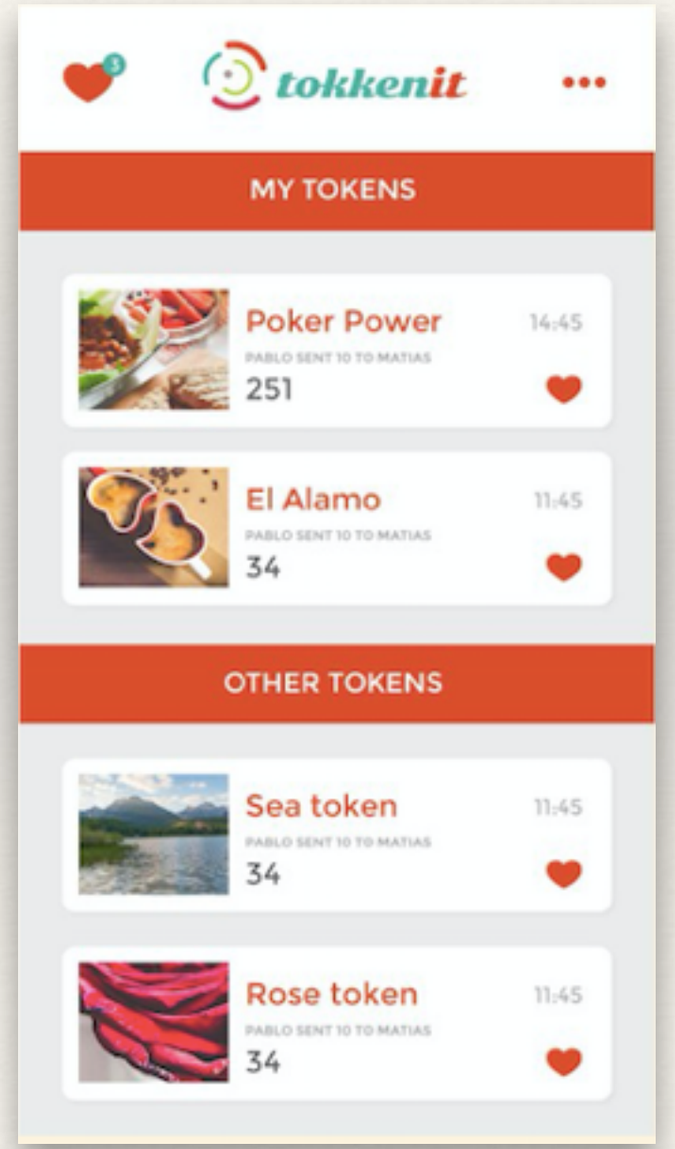


tokkenit

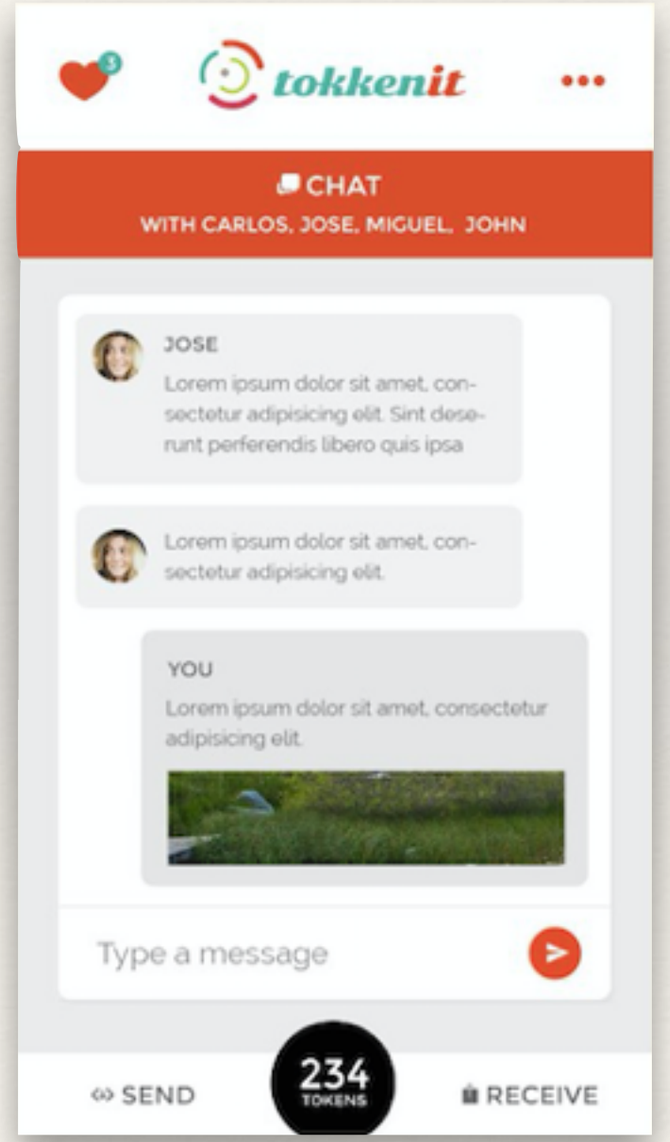
Friends Invite



Token/Chat Menu



Chat Room



Tokkenit Individual Users

Facilitated exchange

- Reputation based
- Basquet of products offered
- Looking for…

Additional use cases

- Charities / Favor Chains
- Multi-user exchange

tokkenit

Tokkenit Corporate Users

Corporate use cases

- Employee loyalty programs
- Distributor reward programs
- Customer reward programs
- Zero-Cash digital management

Additional opportunities

- Global multi-brand programs
- Communication channel with consumers & distributors

tokkenit

What Makes Tokkenit Unique?

First Asset Tokenization Social Network based on Blockchain Technology

No double spend

Decentralized / Auditable

Instantaneous

Extremely efficient

tokkenit

Tokken Labs

- **Tokken Labs is Koibanx's division focused on Corporate use cases**
  - **Banking Solutions**
  - **Zero-Cash collections**
  - **Crowdfunding**
  - **Capital-to-peer Lending (Financial Inclusion)**

Asset Tokenization Pipeline

- Non-regulated Blockchain Services
- Financial Services
